

ABIES (Fir)

nordmanniana 'Arne's Dwarf' (Dwarf Nordman Fir)

○● • h8' • w2' • r6-12" • Z5

attractive dwarf Nordmann Fir with a narrow upright habit. Dark green, with the characteristic two white stripes on the undersides reflect a bit of frosting to the overall look. A very dense tree that fills in over time. Thrive in moist, well-drained, acid soils.

ACER (Maple)

palatum 'Sango kaku' (Coral Bark Japanese Maple)

○● • h20' • w15' • r12-15" • Z5

flaming, coral-red bark that stands out in winter. The leaves emerge in spring with a flush of bright, yellow-orange and change to soft green for summer, which provides a sharp contrast to the glowing, coral bark. Bright golden fall color is a flashy effect too.

Not Guaranteed

x pseudosieboldianum 'Final Fire' (Korean Maple)

○● • h20' • w15' • r12-15" • Z5

new spring foliage makes a soft entrance with pastel shades of yellow, pink, and green. Long-lasting fall color display begins with orange tones, gradually moving to a wine red, and finally a startling fire engine red that dazzles the eyes. *Not Guaranteed*

spicatum (Mountain Maple)

● • h25' • w20' • r8-14" • Z2

occurs through out Maine and is especially common in the northern part of the state. It grows as a small bushy tree, seldom over 30 feet in height. At times, the tree forms fairly dense thickets, due to its habit of growing in clumps. It grows best in a wet habitat or on damp, northern slopes.

BETULA (Birch)

costata 'Cinnamon Curls' (Dwarf Korean Birch)

○● • h9' • w9' • r3-6" • Z3

dwarf compact form of Korean Birch with exfoliating cinnamon brown outer bark that curls in long strips exposing the white inner bark. Bark begins exfoliating at a young age. Golden yellow fall foliage. Originating as a hardy seedling selection from North Dakota State University.

CEPHALANTHUS (Buttonbush)

occidentalis 'Crimson Comets'

○● • h6' • w6' • r9-12" • Z5

a pollinator magnet with fragrant, white blooms in late spring that change into attractive, round, red fruit loaded with seeds native songbirds love. Spectacular red fall foliage color.

CERCIDIPHYLLUM (Katsura Tree)

japonicum 'Red Fox'

○● • h20' • w15' • r12-15" • Z4

heart-shaped leaves emerge soft, purple-red, that change to a crisp wine red, and then blue-green in summer. Fall foliage is a bright golden yellow with hints of pinkish orange and has a sweet and spicy scent. Responds well to thoughtful pruning which will encourage a majestic winter silhouette.

CHAMAECYPARIS (Falsecypress)

obtusata 'Graciosa'

○● • h10' • w7' • r6-8" • Z5

sprays of lacy foliage. Consistent shape, attractive texture and ascending branching make it a superior garden evergreen for formal and informal gardens, especially wherever a Japanese aesthetic is desired. Bright, new foliage accents the mature foliage in spring.

DIERVILLA (Bush Honeysuckle)

lonicera 'Nightglow'

○● • h3' • w4' • r9-12" • Z4

Bright yellow flowers from spring to fall. Chocolate, maroon, and deep purple foliage turns more intense in fall. Native plant that attracts native pollinators. Deer-resistant.

DIOSPYROS

virginiana (Persimmon Tree)

○● • h30-40' • w25-30' • r9-12" • Z4

strongly growing native with a broad oval shape. Fragrant greenish-white flowers in May. Orange to purplish, 1-2" diameter tasty fruit matures in fall. Easy to grow. Fruit is colorful and highly prized. Tree can be used as a specimen. Drought resistant with few insect problems. Recommended two (or more) plants to ensure proper pollination.

HYDRANGEA

macrophylla 'Eclipse'

○● • h3-5' • w3-5' • r12-18" • Z5

the first true dark leaf Hydrangea macrophylla! The dark foliage holds its color throughout the season, and pairs nicely with its dark purple or cranberry blossoms.

ILEX (Evergreen Holly)
meserveae 'Little Rascal'

●● • h2' • w3' • r3-6" • Z5

forms a small dense evergreen mound. This petite male Holly pollinates female Meserve Hollies, it will not produce berries. *Not Guaranteed*

LIQUIDAMBAR (Sweetgum)
styraciflua 'Silver King'

○● • h40' • w30' • r12-18" • Z5

glossy green foliage has cream variegated edges and turns brilliant red-purple in fall. *Not Guaranteed*

MALUS (Flowering Crabapple)
'Emerald Spire'

○ • h15' • w6' • r9-12" • Z2

slow growing with a columnar compact form. Bright fuchsia colored buds open to pink flowers in the spring. Plentiful ornamental red 1" fruit follows. Dark green to purple leaves have remarkable disease resistant. Prefers moist, well drained soil. A great choice for an accent tree, used as a screen, or for small spaces.

METASEQUOIA (Dawn Redwood)
glyptostroboides 'Amber Glow'

○● • h30' • w12' • r4-6' • Z6

compact, dense pyramidal form with bright golden foliage with hints of burgundy in the spring. Golden orange fall color. Compact habit. *Not Guaranteed*

PARROTIA
persica 'Persian Spire' (Upright Parrotia)

○● • h25' • w10' • r12-24" • Z5

unique for both its form and fine texture, this strongly upright tree is a colorful choice for hedges, screens and formal street plantings. Refined foliage emerges purple and matures to green with purple tinted margins that linger into the summer months. Fall color is bright and long lasting yellow, orange, and red. *Not guaranteed*

#7.....159.99

SPRING

SUMMER

AUTUMN

PICEA
glauca 'Little Dipper'

○ • h6' • w4' • r2-4" • Z4

a pleasing formal shape in a mid-sized package. Grows faster than its parent. Conical habit. Excellent, very hardy addition to the formal garden.

PINUS (Pine)
heldreichii (leucodermis) 'Green Bun'

○ • h3-4' • w3-4' • r3-6" • Z5

the perfect example of a Small Wonder that has all the traits of the bigger Bosnian pines, dark green needles, a beautiful squat shape, but has the most important difference a plant can have, it fits in a small sunny space in the garden.

RHODODENDRON (large-leaved)
'Purple Passion'

○● • h5' • w5' • r9-12" • Z4

big violet-purple blooms cover the plant in spring. Dense, rounded habit.

SCIADOPITYS (Japanese Umbrella Pine)
verticillata 'Green Star'

○● • h12' • w6' • r6-12" • Z5

clusters of succulent, glossy, dark green needles radiate outward making it look like it is covered in green stars. Dense habit and tropical looking. *Not Guaranteed*

STYRAX
obassia (Fragrant Snowbell)

○● • h30' • w20' • r12-15" • Z5

small shade tree with early summer, 8-inch long, dangling, white bell-flowers. Fragrant. Native to Hokkaido Island, Japan.

Roses
ENGLISH GARDEN ROSES

○ • Z4/5

'Eustacia Vye'

pretty rose of soft, glowing apricot-pink, with delicately ruffled petals. A delicious strong fruity fragrance. Z4 h4'

'James Galway'

upright growth and makes a wonderful climber in a short time. The strikingly beautiful flowers are mid pink at the center, gradually becoming lighter towards the edges. Z4 h12'

'Strawberry Hill'

pure rose pink, color gradually pales to a lighter pink at the edge. A strong and delicious myrrh and (heather) honey fragrance. Z4 h8-10'

'The Pilgrim'

soft, pure shade of yellow, the petals paling slightly towards the edges. Fragrance is a perfect balance of tea and myrrh. Z5 h5-8'

'The Wedgwood'

large, soft pink blooms have delicate, gossamer-like outer petals, creating a charming effect. Has a medium-strong fruity fragrance. Z5 h10'

'Wollerton Old Hall'

rich buttery-yellow blooms which pale to a softer creamy color. One of the most fragrant of all English Roses, with a distinctive myrrh scent. Has few thorns. Z5 h4-5'

Perennials

ACHILLEA (Yarrow)

'Firefly Peach Sky'

○ • h30" • w24" • Z3

(peach) summer

A taller Yarrow. Light peachy-orange flowers age to yellow. Mature and new flowers create a blend of colors, much like you would find on a peach fruit. The wide, flat flower clusters are popular landing pads with pollinators. Tall, upright habit.

ACTAEA (Cimicifuga)

rubrifolia

● • h18" • w24" • Z4 (white) late summer

Endangered in its native range. Produces 4 foot tall white flower spikes late in the summer. Foliage gets 2 feet tall and more substantial than *A. racemosa*, looking more like maple leaves. Likes alkaline soils, but will tolerate slightly acidic soil with amendments.

AGASTACHE

'Meant To Bee Queen Nectarine'

○ • h36" • w36" • Z5

Soft peach flowers are held on mauve calyxes. Calyxes hold their color after the plant stops blooming, extending interest into fall. Heat and drought tolerant.

ALLIUM (Ornamental Onion)

nutens 'Pincushion'

○ • h16" • w14" • Z4

This small-scale Allium is perfect tucked along the front of the border. Narrow glaucous blue-green foliage forms a tidy habit until numerous clusters of lavender purple flowers spring up in midsummer, persisting for many weeks. Attractive seedheads remain after flowering has finished.

ARMERIA (Sea Pinks, Sea Thrift)

Dreameria 'Daydream'

○ • h12" • w12" • Z5 (bright pink) spring-fall

A long blooming (spring to fall) Armeria, with large, globe-shaped flowers over tidy, mound grass-like foliage, stems are thick and sturdy. Heat tolerance, petite size and ornamental foliage make it perfect for sunny borders, rock gardens.

BERGENIA (Pigsqueak)

'Happily Ever After'

○●● • h12" • w" • Z4 (white) spring

NEW! This perennial Pigsqueak will impress early in the season with large clusters of near-white flowers on tall, dark red, sturdy scapes. Dark green leaves grow to a massive size, with a rippled edge to each leaf. While this plant is capable of growing from full sun to shade, it will thrive when given additional moisture in full sun and afternoon shade in the south.

CALAMINTHA

nepeta 'Montrose White'

○ • h18" • w18" • Z5 (white) summer

Clump-forming and compact. Covered in small, fragrant white flowers from June through October. A pollinator magnet. Will not self-seed due to its sterile nature. 2010 Perennial of the Year.

CLEMATIS

Boulevard 'Parisienne'

○● • Z4 • h4' (pale violet) summer

(4" Prune group C) NEW! A superb repeat blooming patio clematis. Compact, free flowering produces an abundant amount of blooms that have wavy-edged petals and attractive red anthers. Blooms early summer to late autumn.

CORYDALIS

solida 'Beth Evans'

●● • h8" • w6" • Z5 (pink) spring

A great filler for the early spring shade garden, with finely divided gray-green leaves and short 4" spikes of pink flowers. Will likely seed around, and goes summer dormant.

DICENTRA (Bleeding Heart)

'Pink Diamonds'

○● • h16" • w18" • Z3

New! A SUN-LOVING bleeding Heart! Prefers full sun and good drainage, do not overwater. Flowers late spring and blooms throughout the season. Medium sized clump of fine fern-leaved foliage.

ECHINACEA (Coneflower)

'Green Twister'

○ • h2-3' • w18-24" • Z3 (lemon-lime) summer

Lemon-lime petals with light pink or carmine red near the center. A robust grower. Blooms mid-summer to fall. A natural mutation of 'Magnus', so not a hybrid and therefore overwinters better than many modern hybrids.

Sombrero 'Tango Tangerine'

○ • h2' • w2' • Z3 (orange) summer

Get ready for a show as bright orange blossoms surrounding a prominent orange cone cover this blooming masterpiece throughout the summer.

Outstanding compact form.

**GEUM (Water Avens)
x 'Cherry Bomb'**

○● • h18" • w18" • Z4

(pink) summer

Semi-double vermilion flowers age to cherry pink. Dark stems hold flowers up above the foliage for a long bloom time. Nicely mounded foliage. Best in full sun and rich soils.

Grasses

FESTUCA (Fescue)

arundinacea 'Glow Sticks'

○ • h24" • w24" • Z3 (C) late summer

A new selection of the common lawn grass, tall fescue, which forms a 1' wide evergreen clump of dark green foliage. In summer, the clumps are topped by an incredible show of lemon yellow flower stalks. Festuca 'Glow Sticks' is truly unique. Full sun, and average to moist soils are best.

PANICUM (Switch Grass)

virgatum 'Blood Brothers'

○● • h4' • w3' • Z4 (W) late summer

Upright, vase-shaped mounds of green-blue leaves with tips that develop a dramatic wine purple tones by mid-summer. Sprays of small reddish flowers develop into tan seedheads by late fall.

SCHIZACHYRIUM

scoparium 'Ha Ha Tonka'

○ • h4' • w4' • Z5

Stiff, upright habit of bluish-green blades that has segments of red, orange, and grey. Brilliant fall color in the landscape. Easy to grow. Drought resistant, deer resistant and perfect for massing in the landscape.

end of grasses

HELIANTHUS

decapetalus (Forest Sunflower)

○● • h5' • w3' • Z4 (yellow) late summer

Eastern U.S. Native that can tolerate shade. Found in wet open woods, clearings, meadows, and river banks. Also called Ten Petalled Sunflower for its ten petals per flower. Host plant for checkerspot butterfly and at home in any rain garden.

HEUCHERA (Alumroot, Coral Bells)

'Black Forest Cake'

●● • h12" • w12" • Z4

Stunning combination of smooth, dark chocolately foliage with bright, cherry red flowers early summer, medium sized plant great for containers and garden beds.

'Electric Plum'

○●● • h10" • w24" • Z4

New leaves emerge nearly black and lighten to an intense purple with dramatic veining. Dainty flowers with bright purple foliage color, an improved flower performer.

'Timeless Glow'

●● • h10" • w12" • Z4 Chartreuse yellow foliage. Leaves mature to lime green. Rich rose pink flowers.

HIBISCUS (Mallow)

'Cookies & Cream' (Summerific)

○ • h3' • w3' • Z4 (white) late summer

Full sun will bring out the deepest matte black foliage color. 6-7" bright white flowers in midsummer. The back of each petal has a slight pink blush near the tip. Green calyxes follow bloom and contrast nicely with the dark foliage.

'Valentines Crush' (Summerific)

○ • h5' • w4' • Z4

Bright red flowers open flat at 7" wide. The leaves have a large, ovate shape and a dark bronze cast in full sun. Upright, columnar habit is very sturdy and resists lodging.

HOSTA (Plantain Lily, Funkia)

DARK MARGIN / LIGHT CENTER

'Touch of Class'

●● • Med • h16" • w24" • Z3 Blue leaves, heavy substance, with striking yellow-gold centers and green streaking. Leaf size: 7" x 5"

LIGHT MARGIN / DARK CENTER

Shadowland 'Hope Springs Eternal'

●● • Lg • h22" • w47" • Z3 (near white) summer

Large Hosta. Heart-shaped, blue horizontal leaves have a crisp creamy white margin and form a formal habit. Its most notable feature are the incredible ruffling on the leaves that undulate all the way to the pointed tips. Near white flowers in midsummer.

BLUE LEAVES

'Dancing with Dragons'

●● • Lg • h18" • w43" • Z3 (near white) late summer

Heart-shaped leaves have margins that are heavily rippled and give the hosta an overall wavy appearance. Holds its beautiful blue color throughout the season. Near white flowers top the habit in late summer. Medium sized Hosta. Leaf size 10 x 5.5"

GOLD LEAVES

'Party Streamers'

○●● • Med • h12" • w30" • Z4 (purple) summer

Long, narrow, wiggly yellow leaves form a mounding habit. Its rapid growth rate. Deep purple flowers contrast with the foliage.

IRIS

germanica 'Lenora Pearl'

○ • h36" • w24" • Z3 (peach-pink) spring & fall

This sweet and petite iris produces soft pink blossoms with a hint of peach and tangerine beards twice per season, in late spring and again in early fall.

LAVANDULA (Lavender)

angustifolia 'Sweet Romance'

○ • h18" • w18" • Z4 (violet purple) summer

The grey-green foliage forms a compact mound topped with plump, rich violet purple flower wands that are perfect for cutting for fresh and dried bouquets. Great in landscapes and containers.

PAPAVER (Poppy)

'Red Rumble'

○ • h3' • w2' • Z3

(red) early summer

Strong grower and disease resistant. Super-sized vibrant red flowers.

RODGERSIA

pinnata 'Chocolate Wings'

●● • h30" • w24" • Z4

(pink-red) summer

Foliage changes through shades of chocolate, bronze and dark green. Pale pink flowers deepen to red. Tolerant of clay soils.

SALVIA (Sage)

'Blue By You'

○ • h22" • w20" • Z4 (violet-blue) summer

Vibrant flowers with long flower stems and very high stem count. Excellent rebloom and winter hardiness. Sterile flowers allow for long bloom time with ample nectar for pollinators.

SEDUM (Stonecrop)

'Back in Black' (Rock n' Grow)

○ • h24" • w30" • Z3 (cream/garnet) early fall

An upright Sedum with near black leaves. Flowers with deep garnet red centers and cream petals in late summer. Great for adding a dark color to the middle of the border!

Sunsparkler Series

○ • h6-8" • w16" • Z3 (rosy pink) late summer

A group of registered Sedum cultivars that are easy to grow, spreading groundcovers with variety of leaf types and flowers in various shades of pink and red. Grown for their showy, fleshy leaves and striking flowers in the late summer to early fall. The flowers are attractive to butterflies and many other pollinators.

'Dazzling Dynamite' - New! Variegated fiery hues of red, orange, yellow foliage, pink flowers.

'Sapphire Tuffet' - New! Fine and thinner deep blue-purple foliage, pink flowers.

'Yellow Brick Road' (Rock n' Low)

○ • h8" • w24" • Z3 (yellow) late summer

A beautiful groundcover for sunny, dry areas. Salt tolerant. Drought tolerant. Fine-textured yellow flowers cover dark green leaves and red stems with a beautiful habit. Blooms a little later than standard summer flowering Stonecrop to extend the season of your garden.

SIDALCEA

'Candy Girl' (Prairie Mallow)

○● • h24" • w24" • Z4 (pink) summer

Related to Hollyhocks but much shorter. Long lasting spikes of bright pink flowers appear in summer and again in fall, with deadheading. Great for cut flowers! Attracts butterflies and hummingbirds.

VIOLA (Violet)

cornuta 'Halo Lilac'

○● • h10" • w16" • Z4 (purple, yellow) spring

Pansy-like, large purple flowers with glowing yellow centers are etched with flirtly dark eyelashes. Long blooming with a pleasing fragrance. Will rebloom consistently if sheared when blooming begins to decline.
